inflatables logos typographic spheres

Nothing else combines high impact visibility with such user friendly installation and operation. Compact, light, plug-in and play; inflatables are the ideal choice for touring and quick turn-a-round events.

prices from £300 + vat

CREAM IBIZA. Inflatables make ideal travel companions; low logistical costs combined with maximum visual impact.

LED Options: Take your inflatable decor to the next level. All our inflatables are available with programmable LEDs; including remote control.

Asymmetric Shapes: Creating inflatables with complex shapes and patterns takes attention to detail and experience. Our team of designers will ensure your requirements are met and surpassed.

Appliqué or Print: If your design includes gradients, images or specific colours; our in-house digital print facility will ensure a smooth accurate result. Alternatively, choose from a range of stock fabric colours, hand crafted appliqué production for truly eye popping results.

Typographic Inflatables: Whatever you want to say; nothing offers more bang for your buck than Bubblehouse inflatables.

Spheres: The simplest of inflatables in theory. In practice, mapping a design, pattern or logo accurately on it's surface is only made possible with advanced 3D software.

CÎROC VODKA PROMOTION. The ability to transform a venue or location quickly and cost effectively are essential requirements for club and PR events.

inflatables structures

Sound reactive pop up walls and Dj booths to grand entrance archways and modular space systems; inflatable structures are both visually stunning and cost effective.

prices from £750 + vat

WIGGLE LONDON. Inflatable Ghetto Blaster Dj booth is just one example of how one of our structures can transform your venue.

Archways: Our inflatable archways are designed to allow access through a standard double door entrance and can be used both outdoor or internally.

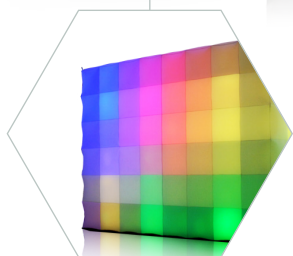

Dj Booths: Our inflatable booths and screens are robust enough to offer practical housing for any stage set up.

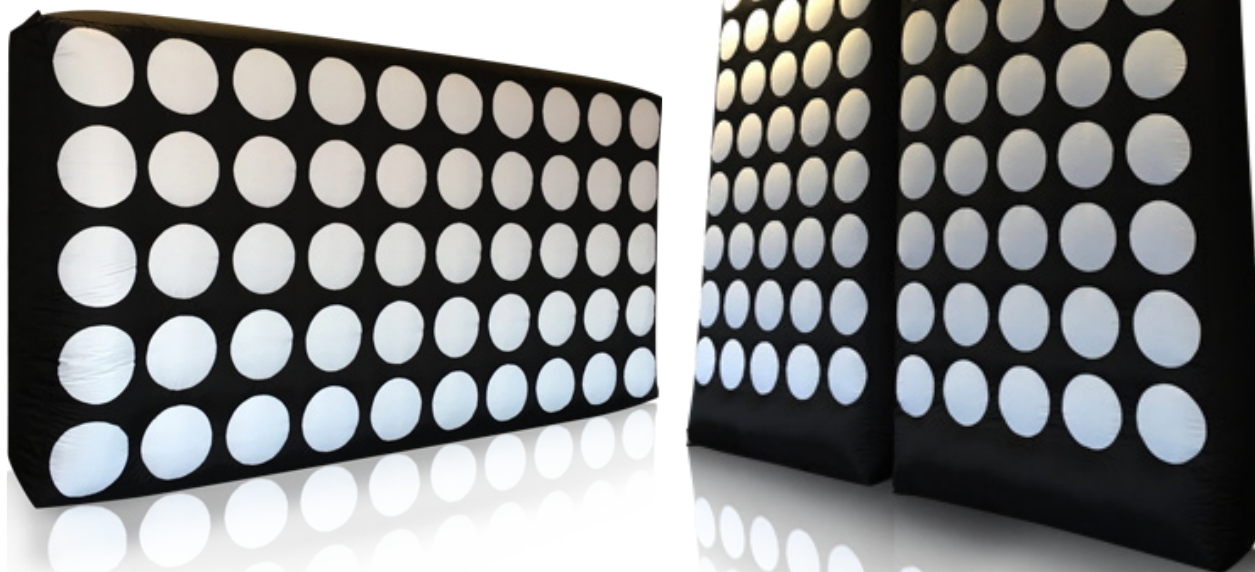

Bubble3: inflatable modular structures that can operate alone or in combination. Each unit contains a DMX LED system.

Bubble3: Each unit of this modular system includes internal DMX LED lighting.

Spot Walls: Inter-locking modular system with remote controlled DMX LED light system. 3.5m high and available as seen or digitally printed on request.

CALVIN HARRIS PA. A modular system with independently controlled lighting enhances any temporary environment to maximum effect.

inflatable props & replicas

CAD technology offers enormous scope for today's inflatables. Our designers can create elaborate, complex structures far removed from the traditional constraints of this medium. The possibilities for large event and stage props and product replicas are limitless.

prices from £1250 + vat

Product replicas: Bottles are the ideal shape for inflatables; especially when combined with faithfully reproduced graphics.

Brand adherence: digital mapping is used to transfer two dimensional logos and designs onto three dimensional surfaces with complete accuracy.

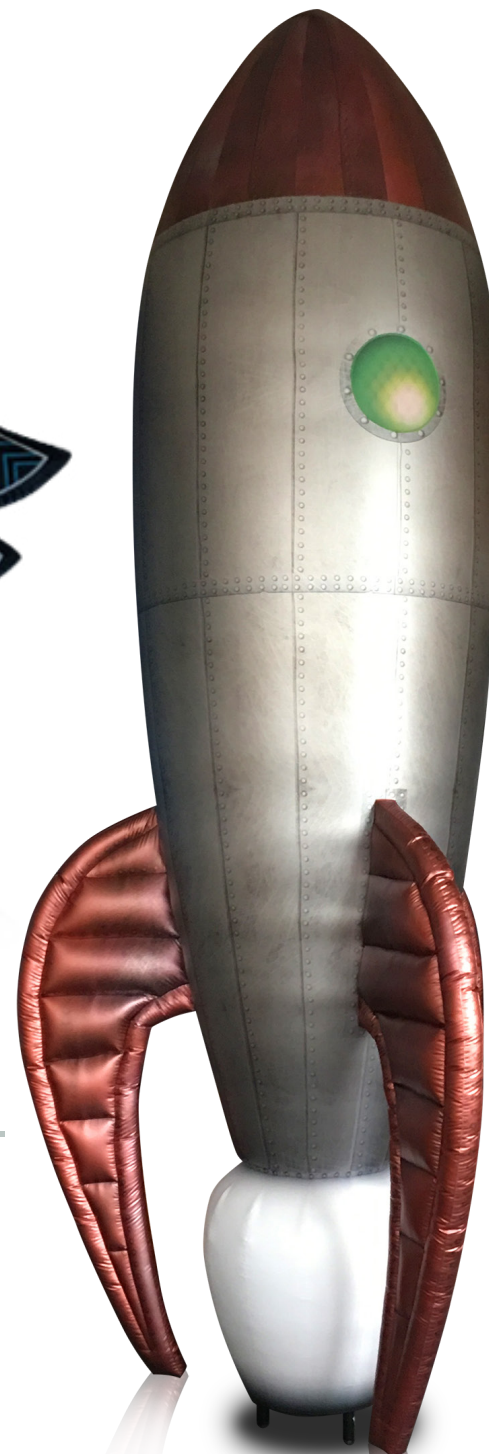

Complex shapes: Computer technology allows us to 'build' precise reproductions.

3D inflatables: Complex surfaces
can faithfully accommodate
printing of logos and brands
thanks to digital mapping.

Rocket ship Our design
department replicated this
copper riveted effect onto coated
fabric for a steam punk themed
event.

STEAM PUNK CORPORATE EVENT. Rocket ship constructed from riveted plates and powered by DMX LEDs (obviously).

BIG NIGHT OUT. UK wide club launch, sponsored by Smirnoff.

rebrandable inflatables

Imagine running multiple themed events and commissioning **bespoke** inflatables to promote each night. Thanks to the Bubblehouse 'rebrandable' system this is now a realistic and cost effective option for Promoters. Each inflatable has a replaceable outer skin. New skins with alternative graphics can be purchased at a fraction of the cost of commissioning new inflatables.

Prices starting from £395.00+ vat
Replacement skins from £35.00+ vat.

Discs: Complete with internal walls to retain shape. Digital print or stock shades with Velcro cover panels to both sides.

Tablets: Complete with internal walls to retain shape. Digital print or stock shades with Velcro cover panels to both sides.

Entrance Archway: Complete with internal walls to retain shape. Digital print or stock shades with Velcro cover panels to front.

Cube: Complete with internal walls to retain shape. Digital print or stock shades with Velcro cover panels to all six sides.

Display Wall: Complete with internal walls to retain shape. Digital print or stock shades with Velcro cover panels to front.

'EXAMPLE' PA TOUR. Rebrandable base units kept production costs to a minimum across multiple venues.

rebrandable DMX Tubes

As well as interchangeable 'skins', our tubes include sound reactive, DMX LED lighting systems for increased visual impact. This versatile and striking inflatable piece can be transformed effortlessly to promote a different event or product. Our tubes are available up to 8m high; ideal whatever size your event space.

Prices starting from £400.00 + vat
Replacement skins from £45.00 + vat

DMX 45 Tubes: Integral DMX led lighting and Turbo fan system are fixed to a solid base. Once inflated the 2m high tube creates the illusion of a solid, permanent structure.

DMX 90 Tubes: Twice the size of the 45, this 'bigger brother' tube has serious presence on the larger stage.

branding banners kites flags pop-up displays mesh-cubes

Our in-house facility can digitally print your message on vinyl, scrim mesh, paper and fabric; any length and up to a maximum width of 2.5 meters. When combined with our production manufacturing capability, Bubblehouse offers Brand Managers the chance to create tailor made platforms for their messages.

Flirt! STUDENT NIGHT. Bespoke promotional banners created for 'The Forum', Hatfield University.

Mesh cube: Aluminium tube and clamp system wrapped in mesh fabric.

Kite Sails: Branded kites are available in a range of sizes up to ten meters. They make the ideal complimentary media to our rebrandable range of products.

Pop-Up Displays: We supply a range of traditional printed display media from pop-ups to full exhibition systems.

DELTIC. Acrylic decor designed and built to support touring Ciroc Vodka promotion.

hard shell light-boxes acrylics mobiles

We are constantly exploring new materials and manufacturing processes. Laser cutting, LED tech and acrylics allow promoters and venue owners new and exciting options for their branding and decor needs.

Light-boxes: Laser cut from transparent and opaque acrylic and illuminated using LED strips.

Mobiles: Vinyl printing and mounted on durable foam board. Light weight mobiles are the perfect media platform for suspending above your target audience.

TING TONG CLUB. Multi-media temporary entrance in use at MoS.

LORD MAYORS SHOW. Low poly stags head; spray painted hard shell on marine ply and softwood timber frame.
