### BUBBLEHOUSE INSTALLATION GUIDE

**Installation | UV backdrops** roll out on a clean surface, taking care not to crease the canvas and damage the painting. Secure the backdrop to a truss using the eyelets and expose to UV light for maximum effect.

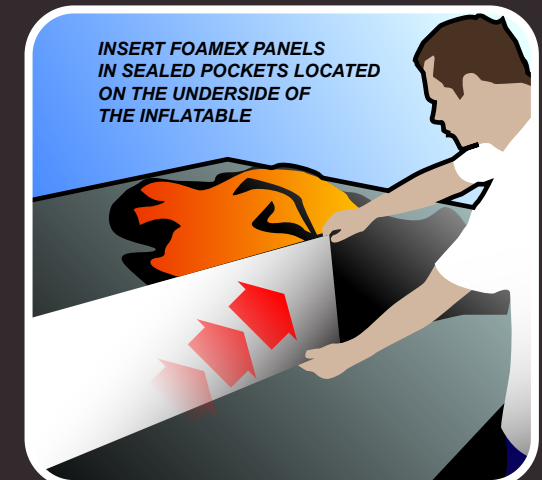

**Installation | pendant banners** remove packing and roll out. Suspend from truss using the steel loops provided.

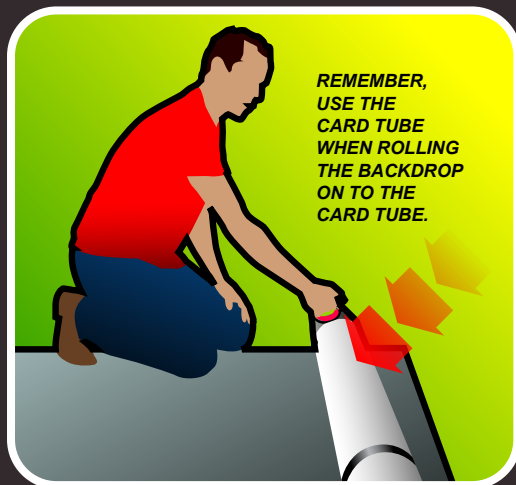

**Installation | Dj booth** these inflatables are free standing so simply plug in and play.

**Installation | floor standing inflatables** before inflating, place the unit in position and (where applicable) insert foamex panel.

**Installation | aerial inflatables** suspend the inflatable by the steel loops attached to the fan unit.
